NOTE FOR: DDA

Harry:

and the second of the second o

We talked yesterday about energizing the President to take a strong stand with respect to high level Government people taking secure documents with them as they leave their current assignments. It seems to me that the group's sense was that this was an important thing to do and that it was possibly doable. Would you pull together a proposal for the Director's consideration to help us try to solve this problem?

James H. Taylor
